

High-strength support

Nature's Own High Strength Cranberry 50,000mg may reduce the risk of cystitis and help maintain urinary tract health. It may also help reduce urinary pH and mask urinary odours associated with incontinence and cystitis. Nature's Own High Strength Cranberry is one of the highest-strength cranberry products on the market.

Nature's Own Grapeseed 15,000mg helps support blood circulation and strengthen capillaries. It may assist in the management of varicose veins, minimise the risk of spider veins, support healthy connective tissue strength and skin elasticity.

RRP: Nature's Own High Strength Cranberry 50,000mg, \$19.95, Nature's Own Grapeseed 15,000mg Circulation Support, \$29.95.
